alzheimer's  association®

THE 10 WARNING SIGNS OF ALZHEIMER'S

WHAT TO WATCH FOR IN YOURSELF AND OTHERS

Sunday, September 19, 4 P.M.

Is forgetfulness a natural part of aging? When does memory difficulty signal a larger problem? This program provides an understanding of the difference between normal aging and when symptoms reveal a larger problem.

Join us and our guest speaker, Cecilia Han, Ph.D., who is a clinical neuropsychologist currently employed at Winchester Medical Center, Virginia. Dr. Han obtained her undergraduate study at U.C. Davis and graduate trainings at Palo Alto University, California. She completed clinical externships and participated in clinical research at VA Palo Alto/Stanford University, including at the Memory Clinic and the Spinal Cord Injury Unit, for differential diagnoses and management of neurodegenerative diseases.

PLEASE REGISTER [HERE](#) PRIOR TO THE EVENT.

COMING THIS FALL!

UNDERSTANDING ALZHEIMER'S AND DEMENTIA | OCT. 3 | 4 P.M.

HEALTHY LIVING FOR YOUR BRAIN AND BODY | NOV. 14 | 4 P.M.
